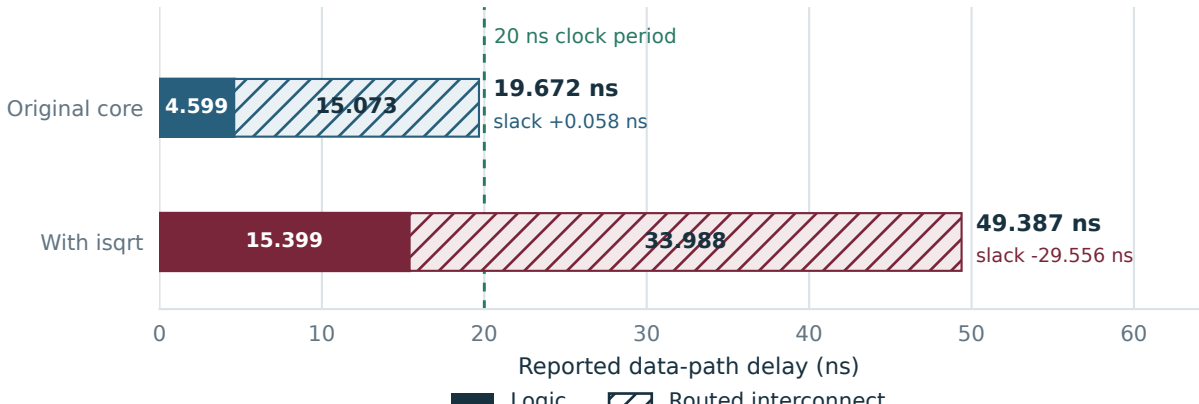
Internal critical paths: logic and routing

Routed OOC | Vivado 2024.2 | xc7a35tcsg324-1 | 20 ns target



Original: 27 levels / 8 CARRY4 With isqrt: 83 levels / 50 CARRY4

Clock period is not the exact data budget; setup and clock terms also affect slack.

Different path endpoints; extended path traverses isqrt_comb. External clock context is incomplete.
